

Maximise Value. Minimize Waste.

# Repair & Recycle

## Your Legacy Telecom Equipment

Swapping and replacing equipment isn't always the best solution. Using the Broadnet repair and recycling service will save costs, extend the life of your investments, and contribute to a more sustainable future.

The Broadnet team consists of skilled technicians with excellent skills repairing a wide range of Telecom equipment. The team members have years of experience working with different generations of technology from legacy analog to today's integrated and embedded software technologies.
